

807 NEXT

Vertical dry vacuum cleaners

Dry vacuum cleaner where compactness and high-level technical specifications merge to create a machine even more efficient and functional than its renowned predecessors. The motor head, designed to ensure maximum quietness, houses the powerful motor, which guarantees excellent cleaning performance.

The ergonomic, durable handle, practical accessory holders, the protective bumper, the trolley with front swivel wheels and fixed rear wheels, and the 10-metre cable make the 807 NEXT extremely manoeuvrable and comfortable to use. The dual hose coupling system, designed to ensure optimal suction performance during use, combined with the special release mechanism on the hose connector for easy one-handed disconnection, delivers high performance and maximum convenience. Available in the FT version, with a textile filter (polyester), and the FC version, with a standard cartridge filter, to ensure the best filtration performance.
